

SL-410 Replacement Scale

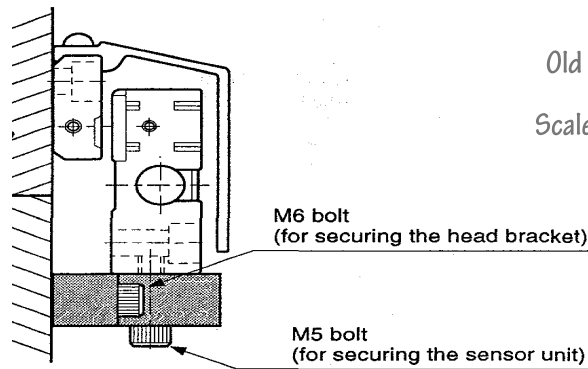

****SL410 scale has been discontinued****

We have a new magnetic media that can be applied over the existing damaged scale. It is applied with double sided tape (similar to SL-130 product)

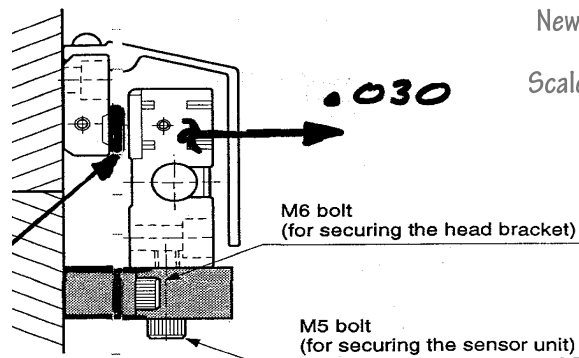

Only change needed to be made is to reader head, it will need to be spaced out an additional .060

Old
Scale SL410
Replacement

Unit : mm (in)

- Green LED light should stay on as machine moves.
- Move reader head back so a .014 gap is between the new scale and the reader head

New
Scale

New
.030
Scale is
added

Unit : mm (in)
